

## HERITAGE HARBOUR SNOW PUSHING POLICY WINTER 2012

Heritage Harbour's snow pushing contractor will begin pushing snow on **private streets** when the **snow depth reaches 3"**. If your street is not listed below, then it is a county street and inquiries should be directed to Anne Arundel County Road Operations at 410-222-7940 if the snowfall is under 4". For storms of more than 4" (or for severe ice storms), call the Road Operations Storm Center at 410-222-4040. Regardless of the amount of snow accumulation, the Lodge and the Clubhouse parking lots will be pushed.

Our contractor will clear an area wide enough for an emergency vehicle on the HHCA private streets of critical care residents first. The contractor will then do the same on all HHCA private streets. When that is accomplished throughout the community, the contractor will then clear all **community-owned** streets and sidewalks as needed. After snow has stopped falling sidewalks that are the Association's responsibility will be cleared if the snow has accumulated more than 3".

The Lodge office staff maintains a list of residents who live on **private streets** with critical care needs. Critical care residents are those residents who are taking dialysis, radiation, chemotherapy, or other treatment, that requires constant nursing care, or have a known serious medical condition that may require immediate transport to a hospital. If you believe you qualify, please call the Lodge office at 410-266-8677. These arrangements **must** be made in advance with the Lodge office. This list is for **Heritage Harbour owned streets** only; not county streets.

### HERITAGE HARBOUR COMMUNITY ASSOCIATION PRIVATE STREETS

#### Coover Road Area

Midship Court

Beacon Way

Yardarm Lane

Yardarm Way – from Beacon to the end. (Yardarm Way from Coover Road through the circle is a county road and will not be cleared by Heritage Harbour.)
